Our Process

Home Assessment

The initial in-home assessment allows you to tell us what you need. You then have the opportunity to ask for input from our experienced home care professionals, who are happy to guide you to find the best solution for your situation. Countryside Care considers your interests, passions, likes, and dislikes to create a customized care plan that meets the needs of you and your loved ones. During the initial in-home assessment, we will discuss the client care contract, price, and answer any outstanding questions.

Caregiver Selection

Our screening process is very thorough to ensure all of our caregivers are a good match with our company. We perform a vulnerable sector criminal record check, reference checks, and we require specific certifications based on the position. We then consider you and your loved one's interests, passions, likes, and dislikes to ensure the selected caregiver is the right fit for you and your customized care plan.

First Visit

During the first visit, you will be introduced to your selected caregiver. Accompanied by an experienced Countryside Care representative, your caregiver will complete your customized care plan. We take this opportunity to make adjustments to your care plan and solidify your care plan moving forward.

Second Visit

Your selected caregiver will arrive independently for your scheduled visit.

Follow-up & Feedback

Countryside Care is here when you need us, twenty-four hours a day. Your feedback is important to us, and we encourage you to make adjustments to your care plan as needed. Any adjustments are taken care of according to your wishes.

Our Services

We offer a variety of home care services to suit your individual needs. If there is a service that you do not see on our website, please contact us. If we cannot assist you with a service ourselves, we will do our best to connect you with someone that can.

We Provide a Complimentary Home Assessment

Personal Support

Personal support is services provided in the home to increase independence, achieve full potential, and meet community inclusion goals. Personal support services are performed by a Personal Support Worker (PSW) or Care Attendant.

- Dressing
- Bathing, showering, and bed baths
- Grooming
- Mobility
- Toileting
- Continence assistance
- Routine skin care
- Medication reminders
- Eating or feeding
- Alzheimer's and dementia support
- Overnight care
- Companionship and community outings

Nursing Support

Nursing support is services that must be performed by a regulated health professional, such as Registered Nurse (RN) or Registered Practical Nurse (RPN).

- Medication administration
- Vital sign monitoring
- Intravenous (IV) management
- Communication with physician
- Wound care
- Catheter care
- Ostomy care
- Tracheostomy care
- Pain and symptom management
- Foot care
- Palliative and end-of-life care

Home Support

Home support is services that maintain the home and assist with essential household tasks. If we cannot assist you with a service ourselves, we will do our best to connect you with someone that can.

- Light housekeeping and laundry
- Meal preparation and planning
- Light yard work
- Grocery shopping
- Errands
- Accompaniment to appointments
- Pet care
- Home safety
- Installation of in-home assistive devices
- Home appliance repair and maintenance
